Projects

KUMAMO

<https://github.com/CYCBrian/project-1-kumamo-recipe-app>

<https://cycbrian.github.io/project-1-kumamo-recipe-app>

Engineered a web application aimed at mitigating food waste by providing personalized recipe recommendations derived from available household ingredients.

Led the development process encompassing wireframing, user story creation, seamless API integration, meticulous design and implementation of buttons, and efficient page transitions. Utilized HTML, CSS, JavaScript, and 3rd Party APIs to deliver a user-centric and functional solution.

Fitzy's Fades

https://github.com/JohnM89/Fitzys_Fades

<https://fizzyfads.onrender.com>

Full-stack application offering a seamless experience for clients and barbers alike. Clients can easily create accounts to schedule appointments. Barbers, in turn, can manage both past and future appointments through their own accounts. Additionally, clients can send inquiries directly to the barber.

Responsible for creation of backend database and server side functionalities.

Powered by React and supported by a GraphQL backend.

Experience

Freelance Full Stack Developer

2024 – Present, Toronto

Collaborated with clients to understand their unique requirements and translating them into scalable and efficient web applications.

Utilized cutting-edge technologies to develop user-friendly interfaces and backend systems, ensuring seamless functionality and optimal user experience.

Honest Express Limited – Assistant to Director

2018 – Present, Hong Kong

Supported the director in various capacities, gaining experience in project management by organizing and overseeing tasks and deadlines. Contributed to investment analysis efforts, conducting market research to identify trends and potential investments. Engaged in hands-on learning about business growth, exploring new connections and opportunities alongside the director's guidance.

Neighbourhood Information Post – Social Service Worker

2017– 2018, Toronto

Managed financial assistance programs catering to underserved individuals and families,

ensuring their access to vital resources. Meticulously planned and coordinated community events to foster local engagement and support. Supervised activities for the Chinese senior group, providing translation services to facilitate effective communication and participation.

Education

Full Stack Web Development Boot Camp Certificate

Edx

Intensive 6 month Boot Camp, honing technical programming expertise in a wide array of languages and frameworks. Gained proficiency in HTML5, CSS3, JavaScript, JQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Handelbars.js, and ReactJS through immersive coursework.

Certification of Project Management

University of Toronto School of Continuing Studies

Comprehensive coursework focusing on the principles and practices of project management. Developed skills in planning, executing, and overseeing projects to meet organizational goals effectively.

Certification of Business Analysis

University of Toronto School of Continuing Studies

In-depth training in business analysis methodologies, emphasizing the ability to evaluate processes, gather requirements, and propose solutions to enhance business functionality.

Certification of Business Management

University of Toronto School of Continuing Studies

Explored various facets of business management, covering strategic planning, resource allocation, and leadership techniques essential for driving organizational growth and efficiency.

Bachelors of Science Honors - Psychology

University of Toronto Scarborough

Completed a rigorous program encompassing psychological theories, research methodologies, and practical applications. Gained insights into human behavior, cognition, and the dynamics of interpersonal relationships.
